10. Description and Purpose of Organization (Limit length to visible area)		
<p>The Montgomery County Department of Parks is a key agency of The Maryland-National Capital Park and Planning Commission (M-NCPPC), the proud steward of over 37,000 acres of parkland. Our mission is to protect and interpret the county's valuable natural and cultural resources; balance the demand for recreation with the need for conservation; offer a variety of enjoyable recreational activities that encourage healthy lifestyles; and provide clean, safe, and accessible places for leisure-time activities.</p>		

11. Description and Purpose of Project (Limit length to visible area)

The purpose of this project is to install an upgraded bridge to replace an existing narrow bridge crossing on the Long Branch Trail at Clayborn Avenue, which is heavily used by school children and their families. The existing bridge provides a vital community connection across the stream valley between schools, parks, retail centers, and the neighborhoods they serve. In addition, two new proximate transit stations planned as part of the Purple Line are expected to increase foot and bicycle traffic crossing this corridor. The bridge will increase the quality and comfort of the residents using the trail and visiting the adjacent park, as well as improve the overall safety for the users. The project will also improve water quality for two stormwater outfalls and stream channel restoration, which will offer more open views into the stream valley. This bridge is also an important aspect for the overall trail corridor rehabilitation along the Long Branch Stream Valley.

Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.

28. Comments	
<p>Long Branch Stream Valley Park #1 is a 16.3-acre park that serves a densely populated, lower-income and ethnically diverse community with representation from nearly 50 countries. The stream valley park is located immediately adjacent to a cluster of affordable garden apartments, not far from the aging commercial center of Long Branch. The stream valley is a green corridor which includes a network of trails and linkages that provide alternative routes throughout the area, particularly to public facilities. This corridor provides the user a chance to step away from the busy and heavily urbanized surrounding area and connect to nature in an environmental setting.</p> <p>The purpose of this project is to install a new upgraded bridge to replace an existing narrow bridge crossing on the Long Branch Trail at Clayborn Avenue, which is heavily used by school children and their families. The existing bridge provides a vital community connection across the stream valley between schools, parks, retail centers, and the neighborhoods they serve. In addition, two new proximate transit stations planned as part of the Purple Line are expected to increase foot and bicycle traffic crossing this corridor. The new bridge will be higher and more accessible than the current bridge which will better accommodate the existing and future pedestrian/bicycle traffic on the trail and between neighborhoods. It will increase the quality and comfort of the residents using the trail and visiting the adjacent park, as well as improve the overall safety for the users. The new bridge and environmental enhancements will offer more open views into the stream valley. This bridge is also an important aspect for the overall trail corridor rehabilitation along the Long Branch Stream Valley.</p> <p>The Long Branch Clayborn Avenue Bridge is well beyond its projected life cycle of 20 years and needs to be upgraded to meet current codes and guidelines. Our current budget does not allow us to make major renovations to parks and trail bridge crossings as quickly as they are needed. With financial assistance from the State, this vital community project will receive renovations several years before traditional funding would be available. We ask for your support for the renovation of the Long Branch Stream Valley Bridge crossing at Clayborn Ave.</p>
